PROJECT DEVELOPMENT PHASE

FUNCTIONAL FEATURES INCLUDED IN THE SOLUTION:

1. Student Information Management:

This feature allows schools to maintain detailed records of students, including personal information, academic history, attendance, and more.

2. Attendance Tracking:

Schools can track and record student attendance, and in some systems, parents can access this information in real-time.

3. Academic Progress Tracking:

Teachers can record and monitor students' academic progress, including grades, assignments, and examinations.

4. Timetable Management:

The system helps create and manage class schedules and timetables for both students and teachers.

5. Communication and Messaging:

It enables communication between teachers, parents, and students through messages, announcements, and notifications.

6. Grading and Report Cards:

Teachers can assign grades, and the system can generate report cards and transcripts.

7.Staff Management:

Schools can manage employee records, including teachers and administrative staff.

8.Exam and Assessment Management:

Schools can schedule and manage exams, including seating arrangements and grading.

9. Parent-Teacher Collaboration:

Allows parents and teachers to communicate and collaborate on students' progress
